LED STROBE FOR WEB TECHNIQUES REWIND SYSTEMS

Inspect printed labels accurately and at high speeds!

INSPECT ROLLS AT A FULL 1200+ FEET PER MINUTE!

The Web Techniques LED Strobe is an option for any new (WT-30LCI and WT-35 series) Web Techniques Rewind System! This option can also be retrofitted on existing WT-25LCI's. Improve your error detection with the LED Strobe. The strobe light creates a "stand still" effect, allowing visual inspection at high speeds.

Features:

- Base unit includes an LED strobe light mounted on an adjustable arm, and a strobe control box.
- Adjustable arm allows easy light adjustments for multiple rolls of labels!
- Optocoupled trigger input for external synchronization devices (provides noise immunities).
- Self-compensating power supply provides a steady flash with no false triggering or missing flashes.

Benefits

- Energy Efficient!
- Inspect rolls up at speeds up to 1200 fpm!
- Consistent bright light at all speeds!

Web Techniques LED Strobe Option on a WT-35 Rewind System

This is my pledge to our customers. If it is not right we will make it right. We follow the Golden Rule at Web Techniques and treat others as we would want to be treated. If you ever have any questions or concerns about a Web Techniques product or service feel free to contact me directly. Thank you for your business!
