NEWSLETTER 03-16

PRODUCT SPOTLIGHT

The newly designed WT-35VS Serialization system allows you to print, record, inspect and serialize labels all in one small package.

With serialization deadlines fast approaching, the WT-35VS with printing and vision system options; will enable you to create standardized serial labels for every global market. The equipment is 21 CFR Part 11 compliant with available connection to the ERP and EPCIS servers. The WT-35VS system is capable of meeting all your labeling and serialization needs.

Visit our You Tube channel if you would like to see the WT-35VS Serialization system or any of our other revolutionary products in action: Web Techniques You Tube Channel

WT-35VS Serialization System

NEED TO LOG YOUR ROLL DATA?

The Web Techniques Data Logging System allows our customers to accurately track roll counts by date, employee, lot designation and label count. All of the data is stored in CSV format on a handy SD card interfaced directly with the system PLC. Once the data is captured it can be downloaded and saved to any spreadsheet program desired and/or printed on dymo or equivalent label printer for easy application to the roll, core or box as desired. To learn more about Web Techniques Data Logging capabilities or any of our other revolutionary products, visit our website at webtechniquesinc.com.

Special Data Collection Information available upon request. Please do not hesitate to bring us your unusual or one off requests. We can record and collect any data required. We look forward to the opportunity to earn your business!

WT-25(LC & LCI) SYSTEMS STILL SUPPORTED

Web Techniques **will** continue to support the WT-25, WT-25LC, WT-25LCI, WT-25VS & WT-25VSL products with fully stocked parts and system rebuilds. Give us a call and we can help get your system back to peak running performance!

After 39 years of support we will no longer be manufacturing components for the WT-15 or WT-20 product lines. Almost all of these tables have been in the field for 25+ years and we have finally moved on. If you have a WT-15 or WT-20 system, contact us and we will show you how we can actually save you money and allow you to get much increased throughput from the WT-30 & WT-35 family of systems!

FEATURES WITH BENEFITS

Proven to save both time and money, the Web Techniques Slitting Attachment (pictured to the right) works with all Web Techniques rewind systems and can be installed the first time in just five minutes out of the box. After initial installation the Slitting attachment can be removed and reinstalled in just a few seconds.

We can retrofit your existing rewind system with a slitting attachment and now offer them for systems that can rewind wider than 10" webs (13+ inches)!

Web Techniques Slitting Attachment

COREHOLDER CORNER

Coreless Rewinding
Have you ever needed or wanted to rewind coreless rolls? Web Techniques offers our unique coreless rewind clip for most of our smaller diameter lift-off air coreholders (pictured to the right). You simply run your normal web path, insert the lift-off air core holder, wrap the coreless roll around the coreholder and install the coreless clip. Now run your labels normally. Coupling the coreless rewind system with a slitting attachment can offer an efficient and unique solution to coreless rewinding. Please let us know if we can provide you with any other information about our unique solutions.

Coreless Clip

This is my pledge to our customers. If it is not right we will make it right. We follow the Golden Rule at Web Techniques and treat others as we would want to be treated. If you ever have any questions or concerns about a Web Techniques product or service feel free to contact me directly. Thank you for your business!
